CONFLICT OF INTEREST: none

PRESENTATION:

Mr. Schwalm is representing the Academic Academy as the executive director. They currently have a site in Camden, and they have been around since 2017 as a special purpose private school, licensed and certified by the State of Maine DOE. They provide programming for at-risk youth from kindergarten through 8th grade for students with emotional behavioral disorders from the public-school districts in Mid-Coast Maine. By 2029 special needs pre-k students will be the responsibility of public schools. After having discussions with the special ed directors in the region, it was confirmed that a specialized program was needed for pre-k. In looking for a building, they identified that 14 Business Circle would fit their needs as it was already a preschool building for several years. No construction is needed. They would use the building for a preschool that would provide specialized treatment for kids with special needs.

CLARIFICATION QUESTIONS FROM THE BOARD:

Mr. Laurent asked Mr. Schwalm if he was associated with the group. Mr. Schwalm replied that he was the executive director of Atlantic Academy.

Mr. Rosenbaum asked who would own the building. Mr. Schwalm stated that Schwalm LLC would own the building and lease the building to Atlantic Academy as a non-profit with board approval. Taxes will be paid to Rockport under Schwalm LLC and not the non-profit.

Mr. Dybas, Mr. Rosenbaum and Mr. Clark had a question regarding the change of use request. Mr. Schwalm responded that the building was previously used as a daycare (Little Learners Daycare), and it has been vacant for over a year.

Director Thomas provided an overview of why this is before the Planning Board. The change is within the two-year timeframe; however, the code enforcement officer felt that because it was a dance studio (categorized as a school in 2007) and then a daycare, it should go before the planning board before issuing permits. The change of use from a dance studio to a daycare was less of a use and was permitted through code enforcement officer and did not go through the planning board. Now the change is going from daycare to pre-k-8th grade school.

Mr. Schwalm clarified that the building will be used initially for a pre-k program for 3-5 -- and they are considering having kindergarten and 1st grade over time. He does not know the difference between daycare, pre-k and preschool.

Mr. Laurent inquired about the number of employees and anticipated students. Mr. Schwalm responded that they plan to have 4 employees on-site and 12 students. If there are over 12 students, the building would need a sprinkler system, which is very expensive. There will be no overnight stay, and no meals will be served.

Mr. Dybas asked if anything structurally needed to be done in the building. Mr. Schwalm responded that nothing would need to be done. He just had an inspection done on the building. It was built in 2007 on a slab. The interior is already built as a preschool.

Mr. Laurent asked about the parking area. Mr. Schwalm responded that there are 12 parking spaces. Chair Leclair and Mr. Clark noticed that on the 2007 site plan there were 16 parking spaces and 1 ADA (double) space.

PUBLIC COMMENT: [00:17:36]

[00:20:49] Chapter 1300, §1303 – Applicability

The Planning Board discussed whether the application should be reviewed under the site plan review or, if it is a permitted use, for it to be reviewed by the code enforcement officer.
