Dear Orion,

I am writing to ask the ZBA to invalidate the building permit and send it back to the Planning Board to reconsider the merits of the hotel based on the citizens' objections and petitions passed last year.

The petitions asked for a reduction of room sizes down to 20 and a complete traffic study.

The Village is a small, quiet space, unlike Camden. I feel it is unnecessary to have a hotel where noise and lights will diminish the quiet village area and harbor. The area already boasts a vibrant space - 2 restaurants, gallery space, businesses and residential space (where at least one apartment occupant will lose her apartment for long term rental by the corporation).

The Village is surrounded by residents and citizens of Rockport who will be impacted by this hotel.

Will you please share my thoughts with the ZBA, ask them to invalidate the permits and send it back to the Planning Board.

Thank you, Lisa Breheny (Rockport resident)
