

Draft

Proposed Amendment to Rockport Sewer Ordinance

Purpose of the Amendment

Town sewers promote the efficient, sanitary and cost-effective disposal of sewage thereby promoting the health, safety and welfare of town residents as well as the economic development of the Town of Rockport. Amendments are proposed whereby these benefits are enhanced and the cost to individual users of the sewer are reduced by increasing the number of residents, businesses and developers that connect to Rockport's sewers.

Proposed Amendments

The following is added to Section 301 of the Rockport Sewer Ordinance:

**Subdivision:** This term shall have the same meaning as is defined in the Town of Rockport Subdivision Ordinance.

Section 401 of the Rockport Sewer Ordinance is amended as follows with new language underscored and deleted language in (parentheses):

**401. Required Use of Public Sewers**

The owners of all houses, buildings, or properties used for human, occupancy, employment or recreation, and the developer of any subdivision, situated within the Town and abutting on any street, alley, or right-of-way in which there is located a public sewer are hereby required, at their own expense, to connect to the public sewer in accordance with the provisions of this Ordinance, except that:

1. Existing houses, buildings, subdivisions or properties serviced by a private subsurface wastewater disposal system, shall not be required to connect to the public sewer until 90 days after the date when the subsurface wastewater disposal system fails to adequately treat the wastewater as determined by the Local Plumbing Inspector;

Commented [OT1]: "development" instead?

2. Owners shall not be required to connect to a public sewer at a location more than (100) 200 feet from the property line; and
3. Developers shall not be required to connect the subdivision to a public sewer if every property line of the subdivision is more than 200 feet from a public sewer.
