---

Dear Julie Brask,

At your request, our Village Partnership Initiative Task Force has developed the following list of desirable elements to be incorporated in any work that will be done on the Goose River Bridge in the Town of Rockport. These elements are also included in the ongoing Planning Partnership Initiative through MDOT with the engineering firm Sewall for a Traffic Infrastructure Study.

1. Sidewalks on both sides
2. Good lighting
3. Electrical conduit underneath
4. Bike lanes
5. Aesthetics of railings, understructure and color

We understand that in the very near future this group will assist you in next steps of this bridge process, and we look forward to working with you on this exciting project.

Thank you,

Village Partnership Initiative Task Force  
Town of Rockport
